## BULLION BARS

n plenty Have Commenced to Flow

LUTTRELL CITY, November 11. his section of Arizona known as the thriving city. Patagonia District, and now famous gation of all mines on the south side of the Patagonia mountains. Being struck with the fine appearance to New York, where he succeeded in a short time in organizing a strong that mine, together with its extensions. He was at once elected Super- Tully. intendent, and in February of this vest, commenced opening up this mine, and in a few months was rewarded for his untiring energy by having over 1000 tons of fine ore ready

for smelting. A smelting furnace of

well-known firm of Fraser & Cham-

bers, Chicago. Owing to the distance

from the railroad and bad roads

caused by incessant rains, much diffi-

causing much delay. However, once on the ground it was soon in place, and is undoubtedly one of the most substantial buildings in Arizona. To-day (Thursday) the match was applied, and the whistle signified the starting of the first smelting works in the Patagonia District. Neither expense nor labor having been spared, none but a satisfactory and gratifying

its way to San Francisco. Iron ore being a necessity in successful smelting, Superintendent Luttrell has bought two mines, one in the Paragonia mountains and the other in the Huschuca mountains, both of which show unusually fine ore, and in sufficient quantity to supply the great-

In March last Mr. Luttrell purchased the Alta and Ohio mines, sitasted near Harshaw, of which he is Superintendent. These mines having proved to be milling ore, a mill will brerected in a few months on a fine stream of water but a short distance from the Alta.

In addition to the above mines Mr. Luturell sold a few weeks ago the Belmont and Washington group, which he had taken in charge, an account of invited to call. which was published in the CITIZEN at the time. These companies have elected Mr. Luttrell as Superintendeut, and should he be persuaded to accept the position he will shortly commence the building of two 60-ton furnaces near where the Holland com-

pany's furnace now stands. At this writing the furnace is in blast, and every part is working finely, much to the credit of Prof. O. H. Hahn, who is in charge, and who enjoys the reputation of being the most successful smelter on the Pacific Slope.

Thus it will be seen that the Hon. J. K. Luttrell has brought before the public one of the greatest mineral districts in America, and to him alone must the credit be given of having brought into Arizona within the past year nearly one million dollars.

#### The White House will hold its formal opening, to commence on Saturday, the 13th of Noveminvited to call.

Another New Industry. The manufacturing industries of The latest is a spring bed factory, and an office or Congress street, nearly days. opposite the residence of Mr. W. C. Davis. The article manufactured is certainly a good one, and Mr. Olds dismiss appeal denied. has most successfully introduced it in Nevada and California. In connection with the making of bed springs, Mr. Olds intends to carry on an extensive manufacture of mattrasses. There is certainly a large field in Ari-Zona for this enterprise, and the CITmen wishes Mr. Olds the best of suc-

He was not satisfied to publish it upon the examination which he and the editorial staff could make. and therefore took the letter and envelope to the Democratic Committee for inspection. He there saw Hewitt, Mr. Baruum, Randall and several others. Mr. Hart showed them the papers, and said in substance that he could not publish the letter if it was a forgery, but if genuine he would, and he wanted no other paper to get aliend of him. He says it was examined by all the persons named, but Mr. Hewitt

made the closest and most careful examination, and then pronounced the letter, both body and signature, to be in the handwriting of Garffeld. Photographs were then taken for the use of the National Committee, and Hart returned with the letter to his office, but his mind was not fully satisfied, and so, late in the evening, he sought and found Mr. Hewitt again, and was assured that Hewist had examined a large number of Gen. Gardeld's letters, and that the Morey letter was genuine; and this was clinched by impressing Mr. Hart's mind with the RAYFIELD & LESHER, Proprietors idea that he would have made it out a surprising that Mr. Hart, with the usual anxiety of newspaper publishers cott's house.
